The guide to setup Mail on the iPhone

Setting up Exchange on the iPhone

To setup your EET email account on your iPhone, you will need to do the following on your iPhone.

1. Click on the “Add Account...” button at the location below:
 - a. Settings->Mail, Contacts, Calendars->Add Account...
2. Select “Microsoft Exchange”
3. Now the exchange guide will start and you will be asked for the information’s shown in the picture. I will go through them below.
 - a. Email: this is you EET email address (example: mcn@eetgroup.com).
 - b. Server: write owa.eetnordic.net
 - c. Domain: write eetnordic
 - d. Username: this is you EET username (example: mcn-dk).
 - e. Description: you don’t need to change this.
 - f. Use SSL: this needs to be turned on.
 - g. S/MIME: this should be turned off.
4. At the end of the guide you will be asked what you want to sync, select what you want and click done.

If you have any problems with setting it up just make a case on <http://support.eetnordic.net> or give us a call to our support line +45 45901818
